SKIRMISH TODAY WITH 600 REBELS

SOUTH DAKOTA AND MINNESOTA VOLUNTEERS ENGAGED.

Skirmish Took Place Near Boscave—Filipinos Were Forced to Retreat With Heavy Losses—Otis Says Troops Are Abundantly Supplied and Their Health is Good.

Washington, April 21—[Special]—The following was received from General Otis this morning: "Troops are abundantly supplied; sickness and wounded included, is only seven and a fraction per cent of the entire command.

Otis."

This report of the health of the Americans in the Philippines is gratifying to the department officials. The showing is a little short of remarkable.

Manila, April 21—[Special]—Six companies of the South Dakota and Minnesota Volunteers had a skirmish with six hundred Filipinos north of Bocave today.

The Filipinos were forced to retreat. Their loss was heavy and only one American was wounded.

The enemy was chased three miles, when the Americans had to return to camp, owing to exhaustion of ammunition. The rebels made their retreat in good order.

Later an army of tugs opened fire on them along the river banks. The heat was intense and several of the Americans were prostrated.

The rebels have been digging trenches in the vicinity of Malolos and Calumpi.

Manila, April 21.—Thursday afternoon a force of 200 insurgents formed a skirmish line, imitating the tactics of the Americans, and attacked the scouts of the First Washington near Taguig. Reinforcements soon came up and the enemy was driven back a mile, when the American ammunition gave out and the pursuit was abandoned. The Americans killed twelve of the enemy and captured some of their arms.

A party of eighteen American soldiers, under command of a captain, went scouting to the north of Guiguinto, where they encountered a body of insurgents 200 strong. A skirmish ensued in which one American was wounded.

Thirteen Spanish gunboats have arrived here under the convoy of the Concord and Petrel. While lying in the waters of the south these boats were looted of their small arms and cannon.

Gen. Rios, the Spanish representative in the Philippines, says that the steamships Porto Rico, Cataluna and Leontrice will proceed next week to Zamboanga and Jolo to transport direct to Spain the remaining 2,000 Spanish soldiers at those places.

Otis Sends Encouraging News.

Washington, April 21.—Gen. Otis sent very encouraging news to the war department Thursday in a private telegram, expressing the opinion that but little more fighting would be necessary to bring the insurgents to terms, and the communications between the American commissioners and the leading Filipinos promised good results. What has passed between the American commissioners and the Filipinos who are trying to arrange a settlement the president does not know, but he has given the commissioners large discretion, and he has implicit confidence in them and in Gen. Otis.

Force Will Not Fall Below 30,000.

The highest estimate made by Gen. Otis of the number of men required in the Philippines is 30,000. There are 21,000 regulars now on the islands or under orders to proceed there. In addition to the Thirteenth infantry, the Seventh and Twenty-fifth (colored) regiments of infantry and one dismounted cavalry regiment will probably be ordered to Manila very soon. This will increase the fighting force of Gen. Otis to about 27,000 men, the total number believed to be required on the islands at this time, with the certainty that the last of the volunteers will not be able to leave Manila until July. Three regiments of regular artillery are also to be sent as infantry, thus giving to Gen. Otis, after the volunteers have been withdrawn, a fighting force of more than 30,000 men.

WILL PUNISH REBELS.

Dewey Prepares for Action—Fears the Sailors Are Dead.

Manila, April 21.—Admiral Dewey was asked as to whether he intended to send an expedition to Baler to punish the insurgents for the killing or capturing of Lieut. Gilmore and the sailors from the Yorktown.

The admiral's answer came quickly and decisively. "Of course," he said.

Then he added that the plans for the expedition to Baler still were incomplete, but that he intended to send an expedition there which would not only release the Spanish garrison, but which would punish the insurgents thoroughly for the treatment they had accorded Lieut. Gilmore and the men of the Yorktown.

Fears Americans Are Dead.

Admiral Dewey would not say what he believed had been the fate of Gilmore and the sailors. He said he supposed they had been either killed or captured. It could easily be seen from his manner that he believes the American sailors are dead. It is probable that the punitive expedition will start within a few days.

Demand to Be Mustered Out.

St. Paul, April 21.—Gov. Lind received the following cablegram from Manila shortly after 1 o'clock Thursday morning.

"Lind, St. Paul: The regiment must be ordered home and mustered out of the service at once.

"OFFICERS OF REGIMENT."

Gov. Lind stated that he was wholly unadvised as to what the exigencies of the moment might be at Manila, and he was very much in the dark as to the real significance of the message. He further stated that the terms of the message were as unintelligible to him as they would be to the public. Gov. Lind said he hoped that something further of a more definite nature would be received.

Will Need Men in Other Islands.

Manila, April 21.—Spain's evacuation of the Philippine Islands will be practically completed by the withdrawal of the Spanish garrison from Zamboanga, island of Mindanao, and from the Sulu islands, and if the United States assumes control of Mindanao and the Sulu islands on the Spaniards' withdrawing, the military authorities must, in order to garrison those islands, diminish the forces of American troops here, which are already too small.

CONTRACTOR AT BELOIT

Richard Finley, Contractor of West Bridge Street Sewer, Ready To Resume Work.

Beloit, Wis., April 21—[Special]—Richard Finley of Janesville, the contractor of the West Bridge street sewer, is here this week and the work on the unfinished sewer will be resumed as soon as the ground will permit. This sewer line will extend to Eighth street, and will afford facilities to a large area of the west side of the city. There is much talk of numerous sewer extensions this summer, but nothing has been definitely decided on as yet. The sewer from the new fire station to connect with the Lawton avenue sewer, on east side of the river, about three hundred feet in length, will be built immediately. Work on the paving on West Bridge street hill began Tuesday afternoon, and if the weather does not interfere, it will be completed in a very short time. The Water Works company has begun the work of extending their lines. The first line to be laid will be the Prairie avenue extension to Wright school. The Water Works company is advertising for twenty-five men to work in the ditches.

Sheridan Drive Bill Killed.

Madison, Wis., April 21.—In the assembly Thursday the Sheridan drive bill, which passed the senate Wednesday, was defeated, the farmers of Racine and Kenosha counties having sent a flood of protests against the passage of the measure. The bill as introduced in the senate provided for the laying out of the drive from the Illinois state line to the city of Milwaukee.

The senate, after some discussion, passed the bill prohibiting the sale of milk of cows fed on distillery slops, but killed the bill giving a bounty of a cent a pound on all beet sugar manufactured in the state.

The conference committee on the bill abolishing the state land office presented its report, agreed to by the full committee. As reported the bill reduces the present force to one chief clerk and assistant clerk, the bookkeeper and one other clerk, at the salaries they now receive up to Jan. 4, 1901. After that date the force is to be reduced to three clerks and placed under the supervision of the secretary of state. The report was adopted, passing the bill as amended.

In cutting the bread a green streak in it alarmed the family of James Toddish and they carried the flour to a physician for inspection. He found it strongly mixed with arsenic. The poison, it is thought, was put there intentionally and the Toddish family accuse another Polish family who are are now living in Milwaukee, with having sold it to them whem they moved away from Crivitz to the Cream City last week. There was enough in the one loaf to have killed the whole family. A charge of attempted murder may be made against the Milwaukee man. Charged With Forgery.

Fond du Lac, Wis., April 21—Mrs. Rhoda M. Brownhorl, nee Hall, formerly of Oshkosh, was arrested here on a warrant sworn out by Joseph Stringham, a wealthy resident of Oshkosh.

The warrant sworn upon the young woman charges her with forging the name of Mr. Stringham to a check for $10,000 and to another check for $2,500, both of which were presented at a Chicago bank on Tuesday.

She smiled when the warrant was read, and stated that "the old man could not deny that he had given her the check for $2,500."

She denies all knowledge of the one said to have been drawn for the greater amount. The Fond du Lac attorney was in Oshkosh today and saw Mr. Stringham, with a view to having him pay the check. He informed the lawyer that he had never given a check to Mrs. Brownhorl for more than $25.

For eight months everything ran smoothly, and it was only when divorce proceedings were instituted to annul the first marriage celebrated in Prussia that Mr. Loetz learned that his wife had been previously married. GOLDEN JUBILEE APRIL 25TH

Members of St. Patrick's Church to Celebrate Great Event.

Half a century ago, St. Patrick's parish of this city, was placed in charge of a resident pastor. Tuesday evening, April 25th, the members of that church will commemorate the event in a manner becoming a golden jubilee, in the form of a banquet and grand Catholic reunion.

St. Patrick's church was one of the first churches built in this vicinity, and for many years served as a place of worship for all Catholics of Janesville.

In connection with the banquet a musical and literary program will be rendered, beginning at 8 o'clock.

The corner stone of the present sacred edifice was laid in 1863, since which time the church has kept pace with the progress of the age and has accomplished grand results in the spiritual uplifting of man.

Dean E. M. McGinnity, who has been in charge of the parish for the past nineteen years, is entitled to much praise for the progressive strides made by St. Patrick's congregation, who now feel proud of their beautiful church and parish.

MANY ATTEND A.O.U.W. DANCE

One Hundred and Fifty Young Couples Participated.

The old fashioned dance given at the armory last night by Olive Branch Lodge No. 36, Ancient Order United Workmen was quite well attended, there being in the neighborhood of one hundred and fifty young couples present who seemed to enjoy every moment. GOOD ATTRACTION TONIGHT

Edward Owings Towne's Farce Comedy "Too Much Money."

A play is either a success at once or not all, while a book may be for years unsold on the shelves and then suddenly spring into fame. Modern playwrights vie with each other in novel and expensive title. The newest of the new farce comedy titles is "Too Much Money by Edward Owings Towne. The name is suggestive rather than descriptive and is really a good example of a title which, perhaps not good for a book, is happy for a play. At Myers Grand this evening.

Umbrella Returned to an American from Across the Sea.

New York Times: There is a prevailing impression abroad to the effect that the ordinary man will not recognize property rights so far as umbrellas are concerned. Prof. Corrigan of the St. Matthew School, Conshohocken, is ready with documentary evidence to show that at least one man in the world is honest in his views on umbrellas. Recently he received a bundle decorated with many foreign labels, accompanied by the following letter: "Florence, Italy, Oct. 2, 1898.—Dear Sir: While stopping at the Florence house I found this umbrella in the wardrobe of my room. On the handle, I saw the initials 'B. F. C.,' and after seeing the entry 'B. F. Corrigan, Conshohocken, Penn., U. S. A.,' on the register, I came to the conclusion that you were the owner. I have kept the umbrella in my possession over a year, and one day accidentally broke the former handle, which you will see I have replaced. I hope it will prove just as serviceable as its predecessor. Hoping to hear of its arrival in good condition, I remain, yours truly, Alfred Caimpe. After Jan. 1, 1899, Genoa, Italy." Prof. Corrigan left the umbrella in question in Florence about two years ago. As it was well cared for by the finder and carefully packed before being shipped, the umbrella will now take a new lease of life with its rightful owner.

IRVING'S NOBLE CHARITY.

His Gift in Charitable Causes Aggregate More Than $150,000.

M. A. P. is authority for the statement that Sir Henry Irving is stated to have given away the enormous sum of £30,000 in charity during the last thirty years. It is probable that the figure is rather under the mark than otherwise. Can one wonder that there is one man on earth who is so beloved by his professional associates as is the Lyceum chief? Here is the story of one of the hundreds of instances in which Sir Henry has exercised a noble and disinterested generosity. One night, during a little supper given by Sir Henry to a few friends, a letter from a broken-down French actor was placed in his hand. The writer begged Sir Henry to appear at the performance to be given in Paris in his (the actor's) behalf. A look that we all know passed over the face of Sir Henry as he perused the letter. Slowly he read it again. "Poor fellow! Poor fellow!" he said. Then, turning to his secretary, after a pause, he hurriedly whispered: "Impossible to go to Paris. Send £50." The actor was unknown to Sir Henry; nevertheless, one can well believe the anecdote.

Chinese Match Makers.

In China the matchmaker or "go-between" is a very important factor in domestic life. He it is who casts his watchful eye around that he may find suitable husbands for the daughters of his acquaintances, and then approaches the parents with due circumspection as well as a good deal of tact and diplomacy. To the family of the young man he narrates the good qualities, beauty and amiability of a certain young girl; then he makes a visit to her father and dwells upon the riches, learning and wisdom of a youth he knows. If he finds both sides willing to consider the question, he plies back and forth between them with all the eagerness of a man anxious to drive a good bargain. He knows that if he succeeds he will get a nice little fee from each family, and so he paints the many charms of the young couple in glowing terms. He is not always truthful, and sometimes the bridegroom, who is not allowed to see his future wife before the ceremony, finds that after the red cloth and veil are removed he is married to an ugly old crone. These instances of bad faith on the part of the "go-between" are fortunately rare, and usually he exhibits much discretion in his matings. A frequent sight to be met with in the narrow little Chinese streets is a bride, in her sedan chair of crimson and gold, hung with garlands of flowers, being borne to the home of the husband she has never seen. The attendants beat loudly upon drums and tom-toms, and fire off innumerable crackers, but even that din does not drown the shrill wailing of the unhappy bride.

Gen. Miller's Future Home.

It is probable that Gen. Miller, who is now at Hollo, will erect a summer residence in Stockbridge, Mass. Relatives of Gen. Miller in that village have received letters from him in which he announces his intention of taking up a residence in the village of his nativity.

THIS DAY IN HISTORY.

Bronte.

...—Alexander the Great died.

1142—Pierre Abelard, famous and unfortunate French scholar and reformer, died; born 1079. The fame of Abelard has descended to posterity chiefly through his connection with Heloise. The story of these two, which reads like a romance, is literally true. The remains of the lovers rest side by side in the same mausoleum in the cemetery of Pere la Chaise, Paris.

1816—Charlotte Bronte, author of "Jane Eyre," born; died 1855.

1836—Battle of San Jacinto; defeat and frightful slaughter of Mexicans by Texans under Sam. Houston.

1879—General John Adams Dix died in New York city; born 1798.

1894—Ex-Governor James W. Throckmorton of Texas died at McKinney; born 1824.

1896—M. Jean Baptiste Leon Say, celebrated French statesman, died in Paris; born 1826.

1898—Minister Stewart L. Woodford given his passports at Madrid. Sampson's squadron blockaded Cuba. First marine capture of the war, the Spanish ship Buena Ventura, in the gulf of Mexico. Date officially fixed as the beginning of the war. General E. C. Walthall, noted ex-Confederate and U. S. senator from Mississippi, died in Washington; born 1831.

VIEWS OF WORKINGMEN.

Wisconsin workingmen can testify with their Pennsylvania brethren as to present business conditions, and will applaud the statement of James Campbell, factory inspector of that state, who strongly advocates a protective tariff, saying that it was generally understood by the workmen that a change in the tariff means a change in the scale of wages. He said that the wages of glassworkers had never been better in the history of the country than at present, taking into consideration the purchasing power of money. This improved condition he thought was due to the protective tariff and to the organization of labor. There had never been a period of greater depression, he added, than under the operation of the Wilson law.

Millions of contented workingmen throughout the country would, if called upon, give similar testimony.

TOBACCO AND POTATOES

An exchange says that Henri Laredan, a gardener at Longport, France, in the Department of Aisne, has succeeded in grafting the tobacco plant on potato tubers. The kinship of the potato plant, as to the nightshade and other narcotic plants, is recognized; but scientists are disposed to take M. Laredan's claim with several grains of salt.

If tobacco stalks could be made to produce potatoes on the roots, the value of Rock county farms would be greatly increased, as two crops could be raised on the same land at the same time. In these times, however, anything may be expected, and M. Laredan's experiments may yet be crowned with success.

The New York Fire Dpeartment is equipped with chaplains, jus the same as a regiment of soldiers. The officials consider that it is as necessary to have chaplains at fires as it is to have them accompany troops at the firing line in time of battle. Loss of life at fires is sometimes very heavy, and there should always be someone present to administer spiritual consolation.

YOUNG MAN.

Fooled the Girls and Never Laughed Again.

It came about this way: The girl from another city had just arrived, and her friends were telling her what to expect. "Oh, you'll get acquainted quick enough," said Clara, "because everybody knows all about everybody else in this place; but I'll tell you about a few of 'em, to begin with, so you won't be surprised. Here, put this cushion back of your head. These window seats aren't much good without plenty of pillows. Now, there are the Marvin girls—they're great fun. We are getting up a play and you are to be in it, but never mind that now. Then there is Jack Fuller, all the girls just rave over him; and Fred Fellows, he's good looking, but awfully conceited; and Elmer Pike, he'll be making love to you in about an hour after you meet him. Then there is Grace Calhoun. The Dillingham boys are dreadfully gone on Grace, and we think she's engaged to one, but we don't know which. In fact, you can hardly tell them apart, they look so much alike. The only difference is that one has gold in one of his front teeth and when he laughs it shows. That is Irving; the other Allen. He'll be here this evening, and you can see for yourself—Irving, I mean." "But how am I to see his teeth?" asked the visitor. "Oh, we'll make him laugh. I'll learn a few jokes on purpose." The plan would have worked all right if the brother of one of the girls hadn't overheard the plot and put his friend on his guard. The young man arrived according to expectation, but his seriousness would have done credit to a gravedigger. He failed to see anything funny in Clara's observation about the weather, although the girls went off into peals of laughter, and then stopped suddenly when they realized they were the only ones who were amused. One after another the girls tried their stories, but won from the young man only the faintest smiles. He made a few polite remarks, and then took his departure, and the girls told their visitor they couldn't imagine what was the matter with him.—Chicago Record.

MET AN ELEPHANT.

On His Way Home, and It Rather Upset Him.

Pittsburg News: "Brown" Crowsin is a flattener in a window-glass factory on the south side. He worked years ago at New Castle, Pa. His turn came off at 1 o'clock in the morning, and getting home at that hour was attended with some difficulties. In those days the traveling circus had no large trains of cars to carry their outfit, but were content to haul their few vans along the country roads, driving their docile animals in the front of the caravan. Crowsin was coming from work one night, and being a man of meditative mind, had his head bowed as he trudged toward his home. All at once he became conscious that he was up against the biggest thing he had ever encountered. He saw a snake-like thing at his side, again over his head and again directly in front of him. He put out his hands to fend off the expected attack and grasped two horn-like things that caused the sweat to break out all over his body. He was conscious that he had met the evil one, but he did not know what use he had for a glassworker. His suspense was relieved by hearing the voice of a man in the rear of the object of his fear shouting: "Git out of the road of them elephants! Did ye never see a circus?" Crowsin was so badly scared that he did not go to work for several days, and will not now attend a circus on a free ticket.

Spinster's Costly Whim.

New York Herald: A dislike which can be accounted for on reasonable grounds by her friends has just been the means by which Marie Van Syckle of Newark deprived herself of at least $2,000 and permitted F. J. Wood of 194 Market street to acquire a parcel of valuable property at a corresponding saving of wealth.

Miss Van Syckle is a wealthy spinster. Among her holdings was the property at the southwest corner of Bank and Halsey streets, Newark. She decided to dispose of it, and immediately it became known that it was for sale bidding became lively.

Mr. Wood offered $40,000 for it, and this offer was raised $2,000 by A. L. Cross, so it is said. Every one supposed that Miss Van Syckle would accept the top figure, and then astonishment, therefore, when she transferred it to Wood was great.

She said that she knew she was losing money by so doing, but declared that she had taken a dislike to Mr. Cross and would not sell him the property under any circumstances.

Easy Way to Be Generous.

In the Baptist church of a New England village was an old man who had all the Christian graces save one, and that one was the grace of liberality. He would do anything in the world for the cause of religion but give up his money. At the close of the financial year of 1869 the church found itself $400 in debt. A church meeting was called, and it was voted to circulate a subscription paper on the spot, and endeavor to thus raise the sum needed. This was done, and the old gentleman did not put his name on the paper. The result was rather disheartening, $200 only having been pledged. Silence reigned for a moment, when one of the most generous men in the church moved that "we double our subscriptions." Instantly the old gentleman was on his feet, and with extraordinary fervor cried, "I second the motion." He evidently felt that he was thus doing his part in hastening a most desirable result.

Where Men Wear Corsets.

A gentleman who recently returned from New Guinea says that the fashion of tight lacing has been evolved as an indication of superior civilization and culture, but they show the remnant of barbarism in that it is the men who appropriate all personal adornment. Young men of fashion wear a belt about eight inches wide, made of stiff bark, which is laced on so tightly that it gives a slim, wasp-like appearance to the figure.

FEMALE TRAMP IN HANDS OF POLICE

WALKED HERE FROM MADISON DURING NIGHT.

Arrested At Four O'clock This Morning By Officer Beneke Who Took Her to the Mary Kimball Mission Home —Girl Says Her Home Is In St. Paul.

Officer Fred Beneke at 4 o'clock this morning arrested Miss Inez Goiner, of St. Paul, on the charge of vagrancy.

On being questioned, Miss Goiner said she walked here from Madison and was looking for work.

Instead of escorting his fair prisoner to the city lock up, Officer Beneke took the young lady to the Mary Kimball Mission home on South Jackson street.

After partaking of a hearty breakfast, Miss Goiner informed Miss Kimball that she had walked all the way from Madison since yesterday morning at 9 o'clock and that she was the daughter of Mr. and Mrs. Albert Goiner, of North Water street, St. Paul, Minnesota.

She further stated that she was nineteen years of age and that she left home four years ago and had not since seen her parents.

Chief of Police Hogan paid a visit to the Mary Kimball Mission home at 10 o'clock this morning and closely questioned the young lady, who told many complicated stories and before Chief Hogan had conversed with her a half hour it was quite evident to him that the girl was somewhat of a prevaricator.

There is much doubt whether she has given the right name or not.

She stated that she had been working at Mezomania, but that she left there a few days ago because the man and woman for whom she worked quarreled from morning till night and were about to get a divorce.

She stated that she had not seen her father or mother in St. Paul for four years, and later stated that she saw them two years ago.

Miss Goiner said that she was sent to the home of the Good Shepherd at Wauwautosa from St. Paul; which home is only for residents of the Badger state. She stated that she could not read or write.

Miss Goiner, if that be her name, is about nineteen years of age, and is a half breed Indian. Her Indian features are plain to be seen, although she says she is a French-Canadian. Indications are that the girl has been tramping it from town to town and beating her way on freight trains as best she could. She was attired in a cheap red shirt waist and a gay plaid skirt which outfit as for colors was most becoming to the taste of an Indian.

Just what to do with the young lady is a question that Chief Hogan and Mary Kimball are now trying to solve.

ENFORCE BELL AND LAMP ORDINANCE

CHIEF HOGAN WARNS ALL LOCAL CYCLERS.

From Now On No Mercy Will Be Shown Those Who Violate the Law—Will Be Hustled Into Court and Judge Fifield Will Do the Rest.

Cyclers who ride their mounts at night without a lamp and who fail to have a bell at all times, are liable to arrest.

Chief of Police Hogan gave orders today that from now on the police are to see that the strong arm of the law is to be laid heavy on those who violate the city ordinance which provides for both bells and lamps.

Arrests will be made after fair warning has been given and after once being informed by the police and if the rider needs a second warning he or she will then be arrested and brought into court.

Another violation of the city ordinance that cyclers will be called on to account for if it is not soon remedied is the riding on walks in both the business and resident sections of the city.

During the past week several accidents have happened to pedestrians who have been accidentally knocked into by cyclers who were careless by riding walks. One Fourth ward lady was badly injured in this way.

The city ordinance section one provides that no person shall ride a bicycle on any of the public highways at a speed to exceed ten miles an hour.

Section two of the city ordinance provides that no person shall ride on the sidewalks.

Section three of the city ordinance provides that all cyclers, must, while riding, have a suitable bell attached to the handlebar of their wheel and at night such wheels must be provided with a suitable lighted lamp.

Section four of the city ordinance provides that no person shall place in the public highways broken glass, tacks, wire or nails.

Chief Hogan stated today that the above ordinances will be strictly enforced in Janesville commencing this week.

TOWN OF PLYMOUTH WOLVES PLENTIFUL

SIXTY DOLLARS PAID YESTERDAY IN BOUNTY.

W. T. Roberts is the Lucky Farmer This Time—Discovered Six Little Wolves in a Hay Stack But Of Course Failed to Shoot the Old Wolves.

Timber wolves in the town of Plymouth seem to be plentiful these days.

W. T. Roberts, a farmer residing in the above township, walked into County Clerk Starr's office yesterday afternoon, having in his hand the scalps of six wolves.

As a bounty from the county of Rock and the state of Wisconsin, Mr. Roberts received the sum of sixty dollars for his trouble.

The scalps resembled small balls of fur, being from the heads of six baby wolves that had just seen the light of day when discovered.

Mr. Roberts informed County Clerk Starr that he accidentally made the find while out hunting, and that he discovered the six wolves in a snug nest in the side of a hay stack.

The old wolves he was unable to locate although many have been seen in the town of Plymouth during the past month and in many instances they have been bold enough to make themselves seen and heard during the day time.

The county of Rock and the state of Wisconsin during the past month have paid out a total of one hundred and forty dollars in bounty for wolf scalps alone from the town of Plymouth.

TELL OF SEIZURE AT APIA.

Samoan Advices Report Arrest of German Official.

SUPPLIED ARMS TO NATIVES.

Commander of the Falke Said to Be in the Custody of the British and American Warships — Story Discredited by Officials at Washington.

Victoria, B. C., April 21.—The steamer Aorangi, from Australia, brings advices that the commander of the German man-of-war Falke, at Samoa, was arrested by the British and is now held a prisoner on the vessel Porpoise. He was surprised by a squad of British sailors handing arms and ammunition to Mataafa's men. The report was brought to Australia by the passengers of the steamer Upola.

After the arrest of the Falke's commander a conference was held between Capt. Sturdee and Admiral Kautz, and the Porpoise and the Philadelphia steamed into a position on either side of the Falke. Orders were then sent aboard that if she made a move of any kind she would be blown out of the water. No one is allowed to go aboard or leave the German ship of war without permission, written and signed by either Capt. Sturdee of the Porpoise or Admiral Kautz.

Fighting continues between the forces of Mataafa and Malietoa Tanus. Bush fights with slight loss of life are daily occurrences and business is practically at a standstill. There is considerable sickness among seamen of the Porpoise and the Philadelphia. Three of the Porpoise's crew died from fever. Mataafa's cause is waning.

April 4 is the date on which the reported arrest was made

Washington, April 21.—The statement that the commander of the German cruiser Falke had been arrested at Apia by the British naval commander is scouted by the officials to whom it was referred here. Both Secretary Hay and Secretary Long expressed their disbelief in the accuracy of the report.

It is pointed out in official German quarters that the arrest of the commander of one warship by the commander of another ship is an absurdity and, moreover, cable advices have reached the embassy much later than those which a steamer could have brought. The British embassy is also without any information of such an occurrence.

WILL CONTEST NEW LAW.

Telegraph Companies and Kansas State Authorities Cannot Agree.

Topeka, Kan., April 21.—The recent session of the legislature passed a law reducing telegraph tolls in Kansas 40 per cent. The companies have ignored the law and announced they will fight it.

It has been the custom for state officers to run bills with the telegraph companies and settle on the first of each month. Today State Auditor Cole announced that he would decline to audit vouchers May 1 unless the companies complied with the new law. The attorney-general advised this course and now the telegraph companies must fight the state, a situation which they hoped to avoid.

Guilty of Cowardice.

New York, April 21.—The findings of the court of inquiry which investigated the allegations of cowardice on the part of some of the officers of the Seventy-first New York volunteers in the battle before Santiago have been made public. The verdict of the court finds that Maj. Smith, who was lieutenant colonel of the regiment; Capt. Whittle, who was major, and Maj. Austin of the staff of Brig.-Gen. Smith, who commanded a company in that regiment, were guilty of lack of bravery and of incompentency.

Belgian Miners' Strike Grows.

Brussels, April 21.—The Belgian coal miners' strike is assuming more serious proportions. Forty thousand men have now left the mines to enforce their demand for a 20 per cent advance in wages. The companies have offered to compromise on a 10 per cent increase, to which the miners refuse to listen.

Independence Mine Is Sold.

Colorado Springs, Colo., April 21.—Cable advices received announce the sale of the Independence mine to an English syndicate. The price is $10,000,000. The deal includes, besides the Independence mine, about 100 acres of surrounding territory in the Cripple Creek district.

Increase in Internal Revenue.

Washington, April 21.—The monthly statement of the collections of internal revenue shows that during the month of March, 1899, the total receipts were $22,738,447, an increase over March, 1898, of $9,491,340.

Mr. Hobart Able to Sit Up.

Washington, April 21.—Vice President Hobart was quite comfortable Thursday, sitting up a short time and partaking of more substantial nourishment than during the severe periods of his illness.

MAPLE City Self-Washing soap is pure, and will do more and better work than any rosin filled soap. Try it.

CUBAN DEBTORS GIVEN TIME.

Land Mortgages Now Due Are Extended to May 1, 1900.

Washington, April 21.—Pursuant to the decision of the cabinet at its meeting on Tuesday, Secretary Alger has instructed Gov.-Gen. Brooke of Cuba to extend for two years from May 1 next the period within which mortgages on land, now due, must be paid. The order applies only to debts incurred prior to Jan. 1, 1899, the date of American occupation. The measure is for the relief of the Cuban planters, who will now be able to plant, grow and market at least two crops before their heaviest obligations fall due. The planters asked to have the rate of interest on their debts reduced, but the cabinet declined so to impair the obligations of contracts.

Hirsch Estate Distributed.

Vienna, April 21.—The estate of the late Baroness Hirsch, including that of her husband, the late baron, has been sworn at 620,000,000 francs ($124,000,000). Relatives receive 100,000,000 francs ($20,000,000). The baroness bequeaths 46,700,000 francs ($9,340,000) to charity, including 6,000,000 francs to the Hirsch foundation in New York, 600,000 francs to the Hirsch institute in Montreal, and 13,000,000 francs to Jewish charities in London. The residue of the 46,700,000 francs is bequeathed to various European Jewish benevolent funds. Baron and Baroness Hirsch distributed during life nearly 500,000,000 francs in charities.

Quay's Fate in Jury's Hands.

Philadelphia, Pa., April 21.—The jury in the Quay conspiracy case went out at 3 p. m. yesterday and up to an early hour this morning had not returned a verdict. The understanding was that if a verdict was arrived at after 10 o'clock last night it would be sealed and not opened until presented to court today. A disagreement of the jury would not surprise many people.

Counsel for ex-Senator Quay did not offer testimony, but rested their case on the evidence offered by the commonwealth.

Will Hear the Mining Cases.

Springfield, Ill., April 21.—The state board of arbitration will hear the Chicago and Alton subdistrict case at the office of the board in Springfield at 11 a. m. next Monday. The subdistrict embraces all mines on the Chicago and Alton railroad from Chatham to Carlinville, inclusive. The application in this case comes from the operators only, the miners having refused to join in the proceeding. The decision, therefore, will not be binding, but will be merely advisory in its nature.

Newgate's Days Numbered.

London, April 21.—The famous Newgate prison is to be demolished and a new central criminal court building will be erected on its site.

Jeffries to Begin Training.

New York, April 21.—Billy Brady said yesterday that Jim Jeffries would commence to train next Monday for his encounter with Bob Fitzsimmons. Brady further said he was in Philadelphia on Wednesday, and that while there, Jeffries received an offer of $25,000 from Otto Flotow to meet Fitzsimmons in Denver. Jeffries is willing to fight in the west.

Give Aid to the Filipinos.

Madrid, April 21.—Official dispatches from Capt.-Gen. Rios confirm Reuter cables regarding the gravity of the situation of the American army in the Philippines. Gen. Rios declares that one source of the Filipinos' strength in resistance is the fact that they have at their head a number of German, Dutch and Spanish officers.

Return of the Volunteers.

Washington, April 21.—It was stated by an officer of the war department that the fourteen volunteer regiments now in the Philippines will not return to this country in the order in which they left. It is believed that the regiments for whose return the most pressure is brought will be the first to come home. The South Dakota regiment, though not the first to go, will probably be one of the first to return. The same is true of the Minnesota regiment.

Another Session Tomorrow.

Washington, April 21.—The Wade court of inquiry will hold a session Saturday afternoon for the purpose of hearing further evidence. There are only two or three more witnesses to be called, and an effort will be made to have them all present at that time. Maj. Lee at the same sitting will make a presentation in behalf of Gen. Miles, summing up what he claims the inquiry has developed in substantiation of the general's original charges.

BACKACHE is a symptom.

Something makes the backache and that something requires attention or the backache can never be permanently stopped. "I suffered for years with a long list of troubles," writes MRS. C. KLENK, of Wells, Minn. (Box 151), to Mrs. Pinkham, "and I want to thank you for my complete recovery. Lydia E. Pinkham's Vegetable Compound is a wonderful medicine for women.

WEARINESS OF BACKACHE

"I had severe female complaints causing terrible backache and nervous prostration; was dizzy most of the time, had headache and such a tired feeling. I now have taken seven bottles of your Compound and have also used the Sanative Wash and feel like a new woman. I must say I never had anything help me so much. I have better health than I ever had in my life. I sleep well at night, and can work all day without feeling tired. I give Lydia E. Pinkham's Vegetable Compound all the credit, for I know it has cured me of all my troubles. I would not do without your remedies for anything."

MRS. E. FURTON, of Meade, Mich., writes: "Two years ago I was troubled with constant backache and headache and was very nervous. I resolved to try your medicine and took two bottles of Lydia E. Pinkham's Vegetable Compound, and on taking the third a tumor was expelled. I was a little frightened and sent for the doctor; and he said that it was fortunate for me that it came away. I got quite well after that and have your Compound alone to thank for my recovery."

Multitudes of women suffer constantly with backache. Other grateful multitudes have been relieved of it by Mrs. Pinkham's advice and medicine.

CHANCES OF THE CANDIDATES.

Sherman of New York Likely to Be the Administration's Choice for Speaker—Hopkins of Illinois Said to Lead in the West.

Washington, April 21.—While Thomas B. Reed has consistently refused to admit the accuracy of the reports that he is to retire from congress, it is the prevailing impression here that he will withdraw. The friends of Representative Sherman of New York are confident he will be chosen speaker. They say that his campaign will be managed by those adroit politicians, Senator Platt and Senator Hanna, and that he will also receive the support of Mr. Reed, who is expected to control the New England delegation for him.

The fight seems to be clearly sectional, the east against the west. West of the Alleghenies there are several probable candidates—Mr. Hopkins of Illinois towering above the others. Representative Grosvenor of Ohio, Mr. Burton of the same state, Representative "Joe" Cannon of Illinois, Col. Henderson of Iowa, Representative Tawney of Minnesota, and perhaps one or two others, are expected to contest the honor. Representative Hepburn has positively announced that he will not be a candidate.

If all vacancies are filled in the next house the republicans will have 185 members, 93 votes being necessary on such a basis for the election of the speaker. The supporters of Mr. Sherman build their hopes upon his being the administration candidate. Without that support he has no hope of success. Mr. Sherman can safely count upon securing the 24 votes of New England and the 50 of the central states, including New York, Pennsylvania, New Jersey, Delaware, Maryland and West Virginia, or a total of 74—19 less than the necessary majority. There are in the southern states, including Missouri, North Carolina, Tennessee and Texas, eight republican representatives who are likely to favor the western candidate, although all have a strong inclination to support the administration. Should Mr. Sherman, with his 74 eastern votes, secure the 15 of Ohio and these 8 southerners, he would have 97, or four more than necessary for a choice.

Mr. Hopkins' greatest weakness will be a divided west. If he is made the western candidate he will receive 88 votes, 5 less than a majority. These five votes he might secure from North Carolina, Tennessee and Texas. This would leave him independent of Ohio's fifteen, which can surely be controlled by the administration, and of Missouri's three, which Richard Kerens is supposed to control, and is expected to vote with the administration forces.

Mr. Hopkins may succeed in securing the withdrawal of other eastern candidates. If he does he will probably be the next speaker. Should Henderson of Iowa and Tawney of Minnesota or other westerners divide his strength, he will fail.

Chicago Live Stock Report.

Chicago, April 20.—Fair receipts of cattle and sheep were at hand for the Thursday trade, and trading in both branches had rather sluggish current, values showing a weaker tendency. Hogs, again in small supply, made close to 5c gain, a good share of the strong weight sort selling early fully that much higher, but the later market had unmistakably weaker tone. Today's receipts were estimated at 9,500 cattle, 18,000 hogs and 10,000 sheep. Some fair heavy cattle and useful sheep and close to 3,000 hogs were still dragging in first hands at a late hour, not wanted at prices paid earlier in the day.

Will Accept Cuban Rolls.

Havana, April 21.—Gov. Gen. Brooke, in the distribution of the $3,000,000 to the Cuban soldiers, has determined to treat the Cuban officers as soldiers and gentlemen, and not endeavor to go behind the rolls they submit. Hence the Cuban lists will be accepted on their face without the eliminations, as previously cabled, namely, those who entered the army after July, 1898, and those who are actually holding office. Any Cuban named on the lists who is identified by his captain will get a share.

Indians Threaten Trouble.

Denver, April 21.—E. R. Harper, special Indian agent at Duchesne, Utah, passed through Denver en route for Washington, where he has been ordered to report. Mr. Harper made several ineffectual efforts to obtain a powwow with some of the leading spirits in the tribe of White River Utes relative to their determination to cross the border this summer and hunt in Colorado. The Indians, he says, are in an ugly mood, and threaten to force their way across if not allowed to hunt unmolested.

"A word to the wise is sufficient" and a word from the wise should be sufficient, but you ask, who are the wise? Those who know. The oft repeated experience of trustworthy persons may be taken for knowledge. Mr. W. M. Terry says Chamberlain's Cough Remedy gives better satisfaction than any other in the market. He has been in the drug business at Elkton, Ky., for twelve years; has sold hundreds of bottles of this remedy and nearly all other cough medicines manufactured, which shows conclusively that Chamberlain's is the most satisfactory to the people, and is the best. For sale by People's Drug Co.

Epilepsy Cured

Had Fifteen to Twenty-five Fits a Day and Was Insane for Ten Long Years Permanently Cured by

Dr. Miles' Nervine

"My daughter was having from fifteen to twenty-five fits a day when she commenced to use Dr. Miles' Restorative Nervine, and after taking one bottle and a half box of Nerve and Liver Pills, the fits stopped. Kept on until she had taken seven bottles of the Nervine and two boxes of the pills to insure a cure. It has been nearly a year now, and there has been no sign of the fits returning. My daughter had also been insane for ten years, and she was cured of this trouble at the same time."

DANIEL MYERS, Brooklyn, Mich.

Seven years later Mr. Myers again writes: "My daughter is all right and has had no return of that terrible disease."

"From childhood up I had epileptic fits, averaging from six to eight a month. Between these spells I suffered with the most excruciating headaches, holding my head for hours at a time. If I walked any distance my whole frame would shake and I would be obliged to sit down, or hold on to something for support. Once while holding a babe in my arms and a lighted lamp in one hand I fell to the floor in a fit, severely injuring the child and burning all my hair off. At another time I let a child fall from my arms on a hot stove. I employed physicians of every school and took medicine for years without obtaining relief. Three years ago I read of Dr. Miles' Restorative Nervine and sent for a bottle. It gave me relief very soon and I continued its use until my headaches were all gone and the fits were counted with the things of the past. Since that time I have enjoyed excellent health and am free from my old troubles."

MRS. MARY LINK,
511 University Ave., Madison, Wis.

"When my little girl was nine years old she was taken with queer spells which the doctor at first called St. Vitus dance, but as she grew worse he said she had epilepsy. His medicine failed to help her and other physicians were called with the same result. Finally she became so bad that she had seventy one fits in one day and nearly as many at night. Everybody gave her up to die, but I got a bottle of Dr. Miles' Restorative Nervine and began giving it as directed. She began to improve from the start and in less than a week the fits stopped. She had lost control of her speech, but a few more bottles of that wonderful medicine completely restored her to health. It has been over two years now since she took the last of the medicine and her health is splendid." MRS. ADIE LEWALLEN,
Siloam Springs, Ark.

"When but two years old my little son suffered a severe attack of LaGrippe and as a result his nervous system was completely shattered. He began to be troubled with epileptic fits, and in spite of all our physicians could do they gradually grew worse and more frequent. Finding no change in his condition we visited several specialists in various parts of the country, but the result was the same. We commenced giving him advertised remedies and had exhausted nearly everything on the market before we tried Dr. Miles' Restorative Nervine. Then for the first time could we see an improvement in his condition. It gave us new courage, and as a result our boy has had no signs of his former trouble in over a year. We now consider him completely cured after a struggle which lasted five years."

M. M. HASKINS, Frankfort, Kan.

"I took Dr. Miles' for nervous prostration and received so much benefit from it that I recommended it to a neighbor whose wife had epileptic fits or "spells" as they call them. From the time she took the first dose of the Nervine she had but one spell. Her health improved steadily until she was completelp cured of her trouble and she never tires in her praise for the remedy.

Every Garden Planted With Landreth's Seeds Will Yield Abundantly.

The time is at hand for garden and flower bed making. There is the usual rush for seeds, with an additional rush at our store. Only one thing to lay it too---LANDRETH, the cause. We handled LANDRETH Seeds last season and the season before; and each year finds a large increase in trade over the previous one. The fact that the LANDRETH seed house has been in business for 115 successive years gives buyers perfect confidence in the qualities of seeds at once. It is but natural that in that time the LANDRETH'S should have found the best way to raise seeds for planting and the best qualities to place on the market. We have never had a customer yet disappointed in LANDRETH Seeds. Of course, under certain conditions of soil, etc., any seed will not grow, but where there is a chance at all, LANDRETH'S will outstrip any seed in all qualities.

You Run No Chance Of Old Seeds.

Most seed houses are not particular about what is done with the old seed left over from last season and many times it is mixed with the new. Not so with LANDRETH'S. Old stock is burned up at the end of each season, so that you are perfectly safe in purchasing.

Try Landreth's Seeds This Year.
